Work, which is performed outside these hours, is billable at \$180.00 per hour, door-to-door Monday through Friday and \$240.00 per hour Saturday and Sunday. By entering into this CONTRACT YOU agree to allow US to bill for On-site service provided outside On-site service hours and Telephone Support provided outside Telephone support hours at the corresponding rates as shown in this section. WE will request a purchase order or other form of payment guarantee for these billable services. If shipped by commercial carrier, it will be shipped for two-day delivery. Expedited delivery is also available, upon request. If YOU wish to have the parts expedited, YOU agree to be billed for the cost difference between the two-day delivery and the expedited delivery.

**D. Preventive Maintenance:** This CONTRACT includes four preventive maintenance calls per year. A preventive maintenance call is defined as a field technician visiting the EQUIPMENT LOCATION to verify proper operation of the COVERED EQUIPMENT, install any factory provided hardware updates, cleaning the heads of tape decks, returning the equipment controls to the predetermined operating levels, converging video projectors for previously established input sources, clean filters and optics of projectors, reloading existing system operating software (if required), and correcting operating conditions that are not within industry standards for operation.

If abnormal operating conditions outside industry standards are noted during a preventive maintenance call and the repair or correction cannot be accomplished during the preventive maintenance call, another repair call will be scheduled to correct the noted condition.

If abnormal operating conditions outside industry standards are noted during a preventive maintenance call and the repair is not covered by this CONTRACT as noted in Article IV, WE will forward to YOU, either in written form or verbally, a description of the condition and a cost to repair.

**E. Loaner Equipment:** If service provided under this CONTRACT cannot bring certain types of equipment to satisfactory operating condition within four (4) working days, a loaner unit of comparable functionality will be provided at YOUR request.
