The project is an Ordinance to adopt Residential Objective Design Standards. The proposed action is exempt from the California Environmental Quality Act (CEQA) as this meets the required actions of CEQA Guidelines Section 15183 Projects Consistent with a Community Plan or Zoning, because it involves the adoption and implementation of design standards which regulate the general design of residential projects, which will not cause significant environmental impact and implements a uniformly applied development policy or standard that is consistent with the General Plan Housing Element policy to further regulate multi-family residential development. The project(s) for which the Objective Design Standards are utilized or are intended, may require the preparation of an environmental document as part of their project(s) review in accordance with State CEQA Guidelines.
