CITY OF MURRIETA

June 3, 2025

A MESSAGE FROM THE CITY MANAGER CAPITAL IMPROVEMENT PLAN BUDGET FOR FISCAL YEAR 2025/26 AND FIVE-YEAR CAPITAL IMPROVEMENT PLAN FOR FISCAL YEAR 2025/26 THROUGH FISCAL YEAR 2029/30

To the honorable Mayor, members of the City Council, and citizens of Murrieta:

On behalf of the City staff, I am delighted to introduce the Capital Improvement Plan (CIP) and budget for the years 2025/26 through 2029/30. This plan allocates funding for capital projects within the City for Fiscal Year (FY) 2024/25, along with a financial strategy for the subsequent four years. The CIP outlines an appropriation of \$11,542,300 designated for new initiatives and enhancements to existing projects. Additionally, it encompasses \$101,983,877 in previously allocated projects that will continue, resulting in a total CIP budget of \$113,526,177 for FY 2025/26. The financing for these projects is sourced from various channels, including development impact fees, transportation funds, grants, and reimbursement agreements that are specifically earmarked for their intended purposes. It is important to note that these funds are primarily restricted from being utilized for general City operations.

I am excited to share that our committed team is unveiling a carefully crafted Capital Improvement Plan (CIP) budget that aligns perfectly with two key objectives set forth by the City Council. First, our staff is dedicated to cultivating a high-performing organization that prioritizes fiscal sustainability, transparency, accountability, and efficiency. Second, we aim to innovate and improve our infrastructure development initiatives. In February 2025, the City Council held a Priority Setting Workshop to identify and prioritize our capital improvement projects in line with our administrative goals. Through this collaborative effort conducted bi-annually, our team has developed a detailed three-tiered ranking system to ensure that we focus on the most impactful projects that resonate with the City Council's vision and objectives. Comprehensive details regarding this tiered ranking can be found in Appendix M of the CIP budget book.

A comprehensive evaluation of the facility was carried out to pinpoint outstanding maintenance concerns and elements that necessitate repair or replacement due to outdated functionality. Following this evaluation, the City Council created essential sustainability reserves aimed at safeguarding and restoring facilities throughout the organization. The Capital Improvement Plan (CIP) budget will tackle some of these issues by leveraging these reserves alongside additional funding sources such as transportation and development impact fees.

CITY OF MURRIETA

I would like to express my gratitude to the City Council for their ongoing support and effective leadership as we work together to navigate a constantly evolving economy while implementing capital improvements that will enhance our infrastructure and instill pride in our citizens. It is crucial to acknowledge the 469 committed employees who contribute to making this community exceptional, achieving significant outcomes with limited resources. Lastly, I extend my thanks to the community, for whom all these efforts are made; your support fosters an environment where extraordinary achievements can occur.

Sincerely,

Justin Clifton, City Manager

**CALIFORNIA SOCIETY OF MUNICIPAL FINANCE OFFICERS (CSMFO)
CAPITAL BUDGET EXCELLENCE AWARD**

The City of Murrieta was honored with the prestigious CSMFO Capital Budget Excellence award for the Fiscal Year 2024/25 Capital Improvement Budget in February 2025. This award program, overseen by the CSMFO Recognition Committee, acknowledges agencies that have well-presented budget documents and adhere to best practices, processes, and procedures. The City of Murrieta has consistently received this award for the past three fiscal years. City staff are confident that this document will continue to meet the requirements of the award program. More information about this program can be found at <https://csmfo.org/news/694087/2024-CSMFO-Award-Program-Recipients-.htm>.

CAPITAL IMPROVEMENT PLAN SUMMARY

I. CIP BUDGET PROCESS

The City, defines a capital improvement project, as a specific undertaking involving the procurement, design, permitting, construction or installation of facilities and related equipment which improves, preserves, enhances or modernizes the City's provision of municipal services, has a long-term useful life, and for which costs exceed \$25,000. Planning the citywide capital improvement plan (CIP) takes a monumental effort on available resources. The CIP budget process is a multi-month process that begins during the fall of the prior calendar year. The process starts when the City's Finance Department budget staff (Finance) prepares the available funding worksheet and conducts a comprehensive analysis of available resources with estimated revenues and expenditures by funding source.

On an annual basis, per California Government Code section 65403(c), the City Council adopts the five-year Plan to appropriate funding for new projects and amends existing projects as needed. The CIP prioritizes projects over the next five fiscal years based on community needs, but only appropriates funding for the first year of the CIP. The funding for capital projects comes from a variety of sources; but, for the most part, these funds are restricted for specific types of capital project construction. These restricted funds are not available to be spent on ongoing operating costs.

As recommended by the Government Finance Officer Association (GFOA), City staff prepares a rolling five-year CIP. The five-year CIP outlines the expenditure plan for future capital projects, and identifies the corresponding revenue sources. California Government Code section 65401 states that if a General Plan or a part thereof has been adopted, a list of the proposed projects will be sent to the City's Planning Commission (Commission) for review and to report as to their conformity with the adopted General Plan. On May 14, 2025, staff is proposing to bring forward the additions to the CIP to the Planning Commission and obtain a finding that the new projects conform with the City's General Plan 2035.

The citywide CIP budget kick-off commences in late November with project managers and representatives from different departments, which includes the City Manager's Office – Special Projects section (CMO), Public Works Department (Public Works), Police Department (PD), Fire Department (FD), Community Services Department (CSD), Parks and Recreation division (Parks & Rec) and the Library division (Library). The departments submits proposed projects to the Finance Department and conducts a preliminary review of the proposed CIP project request or changes to an existing project.

The internal CIP review committee meets in January to review the proposed projects and ranks them according to the GFOA recommended and industry best practices on capital improvement planning factors in the area of legal mandates, public health and safety, preservation of assets, operating budget impact (cost/benefit analysis), economic impact, environmental, social and governance service delivery impact and community service delivery impact. The ranking is submitted for review to be presented to the City Manager for review and consideration.

In February 2025, the City Council convened a City Council Priority Setting Workshop to prioritize our capital improvement projects in conjunction with our administrative objectives. Through this collaborative bi-annual effort, staff has established a comprehensive three-tiered ranking system designed to ensure a focus on the most impactful projects that align with the City Council's goals and vision. Comprehensive details can be found in the CIP budget book.

The budget is presented at a high level to the Assistant City Manager and the City Manager for their final review and approval in February. In May, Finance and Public Works bring forward the new CIP projects for the Planning Commission's review on how the proposed new CIP projects are in conformance to the City's general plan. The CIP budget concludes with the City Council's formal adoption of the one (1) year budget and five-year plan at the designated public hearing in June annually.

CAPITAL IMPROVEMENT PLAN SUMMARY

June 3, 2025	City Council Regular Meeting - CIP Budget Adoption
July 1, 2025	Activate Proposed FY 2025/26 CIP Budget in Finance Enterprise

CAPITAL IMPROVEMENT PLAN SUMMARY

II. CIP PROJECTS BY FUNDING SOURCES AND TYPE OF INFRASTRUCTURE

During the CIP budget process, the Finance and Public Works departments work hand in hand in a comprehensive review and analysis of the existing and future CIP projects and how it relates to the overall City budget. City staff conducts a comprehensive analysis of the different funding sources, revenue estimates and trends, operating budget impacts and discusses these results with the different project managers to be able to assess and plan to allocate available resources at hand.

The following is a summary and graph of the various funding sources for the FY 2025/26 CIP:

CIP SUMMARY BY FUNDING SOURCES

Development Impact Fee Funds	\$	42,139,214
Transportation Funds		30,502,455
Grant Funds		17,597,064
Measure T		9,545,175
General Fund & Gen. Fund Capital		6,718,614
Drainage Funds		3,759,524
Other Funds		1,512,840
Redevelopment Agency Bond Proceeds		904,358
Reimbursement Agreements		846,933
TOTAL BY FUNDING SOURCES	\$	113,526,177

CIP FUNDING BY FUNDING SOURCE

CAPITAL IMPROVEMENT PLAN SUMMARY

The following is a summary and graph of the projected capital project by infrastructure for the FY 2025/26 CIP:

CIP SUMMARY BY INFRASTRUCTURE

Streets & Highways	\$	53,454,674
Bridges		20,835,483
Buildings		19,665,199
Other Improvements		6,787,495
Storm Drains		6,411,843
Traffic Signals		3,235,865
Parks		3,135,618
TOTAL BY INFRASTRUCTURE	\$	113,526,177

CIP PROJECT BY INFRASTRUCTURE

CAPITAL IMPROVEMENT PLAN SUMMARY

III. FISCAL YEAR 2025/26 PROPOSED APPROPRIATIONS

A. NEW PROJECTS

City staff is proposing to add new projects in the first year of the CIP budget (FY 2025/26). The appropriation required for new and future projects is \$1,400,000. The proposed new projects are the Enterprise Resource Planning (ERP) System for the Finance Department and Human Resources Division. The proposed system will provide an electronic record-keeping of all financial, payroll, and employee data management processing. There are also anticipated supplemental projects as they relate to the Library Expansion project, such as the Library Public Address System and an enhanced Library Fire Alarm System to tie in the existing infrastructure to the eagerly anticipated expansion of the Library.

Project Detail	CATEGORY	2025-26	2026-27	2027-28	Future Years	Total
10049 Citywide ERP System	Other Improvements	1,200,000	-	-	-	1,200,000
21045 Library Fire Alarm System	Buildings	150,000	-	-	-	150,000
21046 Library Public Address System	Buildings	50,000	-	-	-	50,000
NEW PROJECTS - SUBTOTAL		\$ 1,400,000	\$ -	\$ -	\$ -	\$ 1,400,000

The final costs associated with those projects will be determined once the Library Expansion construction is bid out and underway. The initial costs estimated are \$200,000.

B. CHANGES TO EXISTING PROJECTS

As part of regular budget monitoring and project management, the CIP budget requires certain major and minor construction projects, along with changes to existing annual maintenance projects, to be amended. Staff proposes changes to 14 existing projects for a total of \$5,613,356 in FY2025/26. This will ensure additional funding as completion of right-of-way acquisition, design, and adjustments to the various construction phases of existing CIP projects rely on these appropriations. The section following the adjustments includes the various proposed citywide maintenance-related projects.

BRIDGES					
Project No.	Project Title	Budget Increase (Decrease)	Project No.	Project Title	Budget Increase (Decrease)

■ Various Citywide Maintenance-Related Programs \$4,660,000

The remaining changes to existing ongoing maintenance projects totaling \$4,660,000 are allocated to the projects in the following table. These 12 maintenance items are regularly included in the CIP budget and help assist the Public Works department in conducting and facilitating smaller-scale citywide projects on a regular basis. This is an increase of approximately four (4%) percent from the prior year as staff anticipates potential increases due to inflation.

CAPITAL IMPROVEMENT PLAN SUMMARY

D. SUBSTANTIALLY COMPLETED PROJECTS

In FY 2024/25, sixteen (16) CIP projects, with approximately \$7,936,767 in total project costs to date, were deemed substantially complete. These CIP projects are in-service or ready to be in-use, while awaiting a full project closeout. Once these projects are completed, they will be closed, and full project costs will be reported in the next CIP budget update.

▪ 10041: Town Square Park Parking Lot and Monument Sign \$2,514,089

The project is expected to be substantially completed by April 2025. It will include the construction of a paved parking lot for vehicles using the nearby Town Square Park, a monument sign, and a lighted walking path around Town Square. The final project cost will be reported in the next capital improvement budget update.

▪ 13048: FY2023/24 Citywide Slurry Seal \$946,036

The slurry seal project is expected to cover approximately 25% of local residential streets citywide. The four-month project is expected to be completed at the end of April 2025. The project is currently completing its last two weeks of slurry seal and it is estimated to be 92% complete. The full final project cost will be reported in the next capital improvement budget update.

▪ CIP 21016: Police Building Exterior Paint \$90,275

The exterior painting project has successfully restored the over 30-year-old building, addressing visible cracks, damage, defects, and fading caused by age.

CAPITAL IMPROVEMENT PLAN SUMMARY

■ CIP 22010: Sykes Ranch Park Windmill and Historical Society Landmarks \$446,924

The project consisted of the construction of a commemorative monument windmill that would acknowledge the historic value of the Sykes Ranch property. The windmill was engineered and installed in February 2023 and the historical markers and site furnishings were completed in the Summer of 2024

■ CIP 51031 Library Pollinator Garden Project \$54,770

The project is a collaboration of the Murrieta Public Library, California State Library, the Western Municipal Water District and Riverside County. The project will help educate the patrons on sustainability, mitigate the growing threats to diminishing pollinator populations, and encourage sustainable landscaping in the community. The Library held a ribbon cutting in August 2024 attended by City Council and members of the public to open the Pollinator demonstration garden.

■ CIP 21035: Police Department Locker Room Project \$81,985

The project successfully transformed the men's and women's locker rooms at the Police Department to accommodate approximately 150 lockers, enhancing the overall functionality and accommodating staff growth.

CAPITAL IMPROVEMENT PLAN SUMMARY

CAPITAL IMPROVEMENT PLAN SUMMARY

- **CIP 21040: City Hall Annex Project \$473,180**

The project was substantially completed in August 2024. The current annex houses the Community Services and Administrative Services Departments. The City Hall Annex had a ribbon-cutting ceremony in March 2024.

- **CIP 22026,22035,22036,22038 (Phase 1) CIP 22029,22030,22031,22032,22040 (Phase 2) \$3,244,698**

As of February 2025, The total expenditures paid since the project inception is \$3,244,698. The Tot Lots Phase 2 projects were substantially completed in October 2024 and the Phase 1 is estimated to be substantially completed by June 2025. The full final project costs will be reported at the next capital improvement budget update.

CAPITAL IMPROVEMENT PLAN SUMMARY

CAPITAL IMPROVEMENT PLAN SUMMARY

IV. CITY COUNCIL PROJECT PRIORITIZATION PROCESS

Three-Tier Ranking System

In February 2025, the City Council convened a Priority-Setting Workshop to prioritize our capital improvement projects in conjunction with administrative objectives. Through this collaborative biannual effort, staff has established a comprehensive three-tiered ranking system designed to ensure a focus on the most impactful projects that align with the City Council's goals and vision. Staff provided updates on the priority projects. The City Council reviewed the prioritized projects and either affirmed the prior prioritization or, in some cases, directed that the ranking for several projects be adjusted.

City Council Priorities Tiers

Tier 1—Fully Programmed Solidified as top priorities by City Council, these priorities are fully programmed with strategies, work plans, and dedicated resources. Priorities are classified as either Large-Scale Projects or Small-Scale Projects.

Tier 2 – Partially Programmed (Identified priorities by City Council that are partially programmed with conceptual strategies but where additional work plans and/or resource dedication are necessary)

Tier 3 – Unprogrammed (Unprogrammed projects/programs not yet prioritized by City Council pending development of strategies, work plans, and dedicated resources.)

The updated detailed City Council Priorities Tiers 1, 2, and 3 and summary are attached under Appendix M of the CIP budget book.

V. MAJOR CIP BUDGET FUNDING SOURCE UPDATES

Gas Tax / Highway User Tax Account (HUTA)

Well-maintained streets are essential for residents and visitors to conduct business and for general transportation purposes. An adequately funded street program reduces potholes, supports the improvement of existing roads and contributes towards the construction of new roads. One of the special revenue sources the City uses to maintain its roads is Gas Tax. Gas tax is received through an allocation from the State of California from taxes collected on gasoline, diesel fuel sales and registration of motor vehicles. These revenues have remained flat in recent years due in part by fuel-efficient vehicles and the increase in use of alternative fuels. The cost to maintain the roads, however, continues to increase.

As of June 2024 revenue received was \$3,027,444, which is 0.1% higher than what was budgeted at \$3,003,380. As of January 2025, the City expects to receive \$3,128,645 for FY 2024/25, approximately 3.34% higher than FY 2023/24 actuals. Initial estimates for FY 2025/26 is expected to stay the same for a total of \$3,128,290. Finance staff will monitor actual receipts and recommend amending the project budgets as necessary.

Measure A

In 2002, Riverside County voters extended Measure A. Measure A will continue to fund transportation improvements through 2039. Funds are generated from the half-cent sales tax levied throughout Riverside County to carry out transportation projects. The funds are restricted to funding a comprehensive program of roadway and transit improvements.

As of June 2024, the City received \$3,588,810, which is approximately 0.9% higher than the budgeted amount of \$3,553,700. The latest revenue projection for FY 2024/25 is \$3,611,000, approximately 0.6% higher than the

CAPITAL IMPROVEMENT PLAN SUMMARY

prior fiscal year actuals. Initial estimates for FY 2025/26 are projected to increase by approximately 2.62% higher than FY 2023/24 actuals, for a total of \$3,683,000. Finance staff will monitor actual receipts and recommend amending the project budgets as necessary.

SB1 Road Maintenance and Rehabilitation (RMRA)

The Road Repair and Accountability Act of 2017 (SB1 Beall) provides a significant increase in revenue to the City. The revenue is restricted to road maintenance and rehabilitation, safety projects, and complete street components. In FY 2023/24, actual revenues received were \$2,856,782. FY 2024/25 actuals are expected to come in approximately 2.15% lower at \$2,795,244. Estimates for FY 2025/26 is projected to increase by approximately 1.35% higher than FY 2024/25 for a total of \$2,833,125. The finance staff will monitor actual receipts and recommend amending the project budgets as necessary.

Development Impact Fee Revenue

As the City's population grows, an increased demand is placed upon its infrastructure and public facilities. In response to the additional demands, the City requires every new development who develops land to mitigate the impacts of that development by paying a Development Impact Fee (DIF). The fees collected are used for new public facilities, vehicles, equipment, and infrastructure development projects. DIF fees are a major revenue source for the development of City projects because they are contingent on development within the City. DIF revenues make up 36.7% of the overall CIP funding sources as shown in Section II of the CIP Funding Sources and Uses chart and table.

In September 2024, the Governor of California, signed SB 937(Wiener) into law which coincided with the regulation of fees for development projects. The act prohibits a local agency that imposes fees or charges on residential development for the construction of public improvements or facilities from requiring the payment of those fees or charges until the date of the final inspection or the date the certificate of occupancy is issued, whichever occurs first, except for utility service fees, which the local agency is authorized to collect at the time an application for utility service is received. The act authorizes a local agency to require the payment sooner than the date of the final inspection or the date the certificate of occupancy is issued, whichever occurs first, if specified conditions are met, including if the fees or charges are to reimburse the local agency for expenditures previously made. The legislation affects the City which defers the collection of the development impact fee to a future date. Prior to the passage of SB 937, the City collects DIF fees prior to building permit issuance for all development. SB 937 defers payment of DIF fees until the end of the project. The result of deferred DIF fees will be fewer fees collected for the next 12 to 18 months. Finance and Public Works staff will continue to monitor actual receipts and recommend amending the budgets and revenue projections as necessary.

VI. OPERATING BUDGET IMPACT

In FY 2025/26 the estimated total ongoing operations and maintenance cost of \$683,295 is reflected under the FY 2025/26 Schedule of Operations and Maintenance with the list of projects. The City includes these operating budget impacts in the biennial budget process to address these ongoing maintenance items. The detailed Schedule of Operating Budget Impact is found in Appendix G of the CIP budget book to fulfill the requirements of Government Code Section 65403 and City Council Resolution 07-1828.

In February 2020, the 2007 Certificate of Participation (COPS) was refinanced into the issuance of the 2020A Lease Revenue Refunding Bonds (2020A LRRB). The issuance was in connection to financing the cost of the 1997 Project to Murrieta Hot Springs Road. In FY 2024/25, approximately \$722,281 in annual Measure A proceeds are budgeted to pay this obligation. In FY 2025/26, an estimated debt service payment of \$724,500 A detailed schedule of outstanding debt is located within the appendices of this CIP budget book. The bond is scheduled to reach its maturity date towards the end of FY 2026/27.

CAPITAL IMPROVEMENT PLAN SUMMARY

VII. UNFUNDED PROJECTS

The City updated the unfunded projects list as part of the 2023 DIF study and facility assessment and has identified approximately \$581.3 million in projects that remain unfunded. This list will be updated as funding becomes available and as new projects are identified. This document contains a list of these projects, as well as pertinent information on all projects currently budgeted. The table below displays a breakdown of unfunded projects by category. The detailed listing of unfunded projects is located in the Unfunded Projects by category section of the CIP budget book on page 65.

Unfunded Projects by Project Type

	In millions

THIS PAGE LEFT BLANK

REVENUE SOURCES

The City of Murrieta's revenue basis for key capital revenue estimates is based on the same basis of accounting as is followed for budgeting. A modified accrual basis is used for governmental and fiduciary funds. Under this method, revenues are recognized only when they become measurable and available. Revenue is measurable when the transaction amount is determinable, and it is available when it is collectible in a manner that allows it to be used to pay for liabilities in the current period. Governments typically define an availability period for revenue recognition, and the City considers revenues related to a specific fiscal year available if they are collected within 60 days after that fiscal year's end. Sixty days is a standard revenue recognition period. Expenditures are typically recorded when the liability is incurred, except for debt service expenditures, which are recorded when payment is due. On the other hand, the proprietary funds, including the enterprise and internal service funds, use an accrual basis. Under this method, revenues are recognized when earned, and expenses are recognized when the related liability is incurred. An Annual Operating Budget is adopted for all Governmental Funds except for the Capital Projects Funds, in which effective budgetary control is achieved on a project-by-project basis when funding sources become available. Each fund has an appropriated budget and is prepared on a detailed line-item basis. All funds are appropriated by the City Council, and appropriations lapse at year-end, except those for the Capital Projects Fund. The City Council appropriations for capital projects continue until completion of the project. As part of the bi-annual City Council Goal-Setting Workshop held in February 2025, the Finance Department identified an updated policy to the Operating and Capital Improvement Budget as a department priority.

AIR QUALITY MANAGEMENT DISTRICT (336)

State funds are available from a portion of the motor vehicle registration fees (CA Assembly Bill 2766) that are restricted for use towards the implementation of programs and projects that will reduce motor vehicle air pollution.

AREA DRAINAGE FEES (551)

Local funds are generated through mitigation fees imposed by the County of Riverside for the construction of drainage facilities to be maintained by the Riverside County Flood Control and Water Conservation District.

COMMUNITY DEVELOPMENT BLOCK GRANT (341)

Federal funds are allocated to local governments, usually through a local clearinghouse (Riverside County Economic Development Agency), based on a formula, and are required to be applied to and used within a broad functional area such as community development.

COMMUNITY FACILITIES DISTRICT FUND (576)

The Community Facilities District (CFD) Fund, is a special district formed pursuant to the Mello-Roos Community Facilities Act of 1982, to finance specific public improvements or public services, and where properties within the district are levied a special tax in accordance with the rate and method of apportionment adopted as part of the district proceedings. City Policy No. 100-24 provides guidelines and procedures for the administration and use of the CFD funds.

COMMUNITY SERVICES DISTRICT FUND (171)

The Community Services District Fund mainly supports the general operations of the Murrieta Community Services District (CSD). CSD maintains the City's 53 parks and recreational facilities and provides for a wide

REVENUE SOURCES

REVENUE SOURCES

variety of vital recreational programs to the community. Funding for CSD is primarily from a special tax assessment and various charges for services (User Fees).

DEVELOPER SPECIAL AGREEMENTS (316)

Local funds are generated by the use of special agreements or conditions of approval for development projects. Developers can construct infrastructure deemed necessary as a result of the developer's project or remit payment-in-lieu.

DEVELOPMENT IMPACT FEES (DIF)

Fees collected from builders and developers to pay for improvements and facilities required to serve new development or otherwise reduce the impacts of new development on a community. Fees are collected for the following classifications:

- Fire facilities, vehicles and equipment (127)
- Freeway interchanges (128)*
- General facilities, vehicles and equipment (129)
- Law enforcement facilities, vehicles and equipment (130)
- Library facility and book collection (131)
- Open space acquisition including habitat preservation (132)*
- Park land acquisition and development (133)
- Storm drainage facilities (134)
- Streets, minor bridges and culverts (135)*
- Traffic signals and controllers (136)
- Community center expansion (137)
- Streets & Bridges (138)

** Fund 138 replaced Funds 128 and 135; these funds no longer collect DIF revenues.*

** Fund 132 has been combined with Fund 133, Open space will no longer be collected.*

FIRE FUND (151)

Fire Department funds are primarily generated by local property taxes and various charges for services. The revenue is used to support the operations of the department.

GENERAL FUND (110)

The General Fund is primarily used to provide funding to the following City services: Police and Code Enforcement; Engineering and Public Works for the construction and maintenance of City streets, roads, bridges, and facilities; Development services, which includes planning, and plan review and inspection services; Economic Development services; General Administrative services, which include Finance, Human Resources, and Legal services as well as programs and services within the Office of the City Manager; and Murrieta Fire & Rescue District (Fire District), the Community Services District (CSD), and the Murrieta Library District (Library) to subsidize District revenues. The primary source of revenue are taxes, charges for services, licenses and permit fees and other miscellaneous revenues.

ARPA FEDERAL GRANT FUNDS (374)

In May 2021, the United States Department of Treasury announced the availability of funds from the American Rescue Plan Act of 2021 (ARPA), related to COVID-19 pandemic recovery efforts. The grant funds are being used to construct City facilities as well as water and sewer infrastructure that will benefit current and future

Murrieta residents.

ASSET FORFEITURE - FEDERAL FUNDS (403/404)

According to the Guide to Equitable Sharing, July 2018, the Department of Justice and the Department of the Treasury Asset Forfeiture Programs are, first and foremost, law enforcement programs. They remove the tools of crime from criminal organizations, deprive wrongdoers of the proceeds of their crimes, recover property that may be used to compensate victims, and deter crime. One of the ancillary benefits of asset forfeiture is the potential to share federal forfeiture proceeds with cooperating state and local law enforcement agencies through equitable sharing. The Department of Justice and the Department of the Treasury Equitable Sharing Programs (Program) enhance cooperation amongst federal, state, local, and tribal law enforcement by providing valuable additional resources to state and local law enforcement agencies. However, the Program is designed to supplement and enhance, not supplant, appropriated agency resources.

FEDERAL GRANTS (377)

On April 2022, the Economic Development Administration (EDA), awarded the City of Murrieta a \$2.4 million grant for renovations to the Murrieta Innovation Center needed to develop a life science startup incubator. An agency within the U.S. Department of Commerce, EDA invests in communities and supports regional collaboration in order to create jobs for U.S. workers, promote American innovation, and accelerate long-term sustainable economic growth. On September 2022, CALOES/FEMA awarded the City of Murrieta a \$430,458 grant for critical facilities generator mitigation for City Hall and the Murrieta Fire and Rescue Administration Building/Fire Station 1. On June 2024, the Economic Development received the US Department of Energy (USDOE) Energy Efficiency and Conservation Block Grant (EECBG) grant that would be utilized for financing, purchasing, and installing energy efficiency, renewable energy, and zero-emission transportation (and associated infrastructure).

GENERAL FUND CAPITAL (112)

The General Funds that are to be spent on capital projects are transferred into this fund.

HIGHWAY USERS TAX ALLOCATION (HUTA) OR “GAS TAX” (306)

State funds are generated from a portion of the gasoline excise tax and are restricted to research, planning, construction, improvement, maintenance and operation of public streets and highways or public mass transit.

HIGHWAY BRIDGE PROGRAM (352)

Authorized by the Federal Transportation Equity Act for the 21st Century (TEA21), this program provides restricted funds for the replacement or rehabilitation of public highway bridges over waterways, other topographical barriers, other highways, or railroads.

HIGHWAY SAFETY IMPROVEMENT PROGRAM (379)

This program was established by SAFETEA-LU as a core Federal-aid program. Funds are to be used to

REVENUE SOURCES

REVENUE SOURCES

achieve a significant reduction in traffic fatalities and serious injuries on all public roads through the implementation of infrastructure-related highway safety improvements.

LANDSCAPE AND LIGHTING DISTRICT FUNDS (200 to 229)

Landscape and Lighting Districts (LLD's) are formed in accordance with the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code and is a flexible tool used by local government agencies to pay for the landscaping, lighting, and other improvements and services for public areas in a particular zone. Landscape and Lighting Districts are based on the concept of charging only those properties that benefit from the maintenance and/or improvements within that development, via an assessment on a benefit unit's annual property tax bill.

MISCELLANEOUS GRANTS (354)

Grants in this fund are typically from local government or non-profit agencies to be used for a specific purpose.

LIBRARY GRANTS (357)

Grants in this fund are typically from local and state government, or non-profit agencies to be used for a specific purpose. For CIP-related projects, the Library received grants from the California State Library (State) and Western Municipal Water District (WMWD) for Capital Improvement Projects (CIP) namely the Building Forward Library Infrastructure Grant and the Sustainable California Libraries Grant. On October 2022, the California State Library awarded the City of Murrieta a \$1,505,625 grant for the expansion of the children's area and creation of the new storytime room. The State and WMWD has also awarded grants to the Library, to help construct the Pollinator Garden.

MEASURE A (302)

State funds are generated from the one-half percent sales tax levied throughout Riverside County to carry out transportation projects. Funds are restricted to fund a comprehensive program of roadway and transit improvements including: highway, street, and road construction; highway, street, and road maintenance; bus and light rail capital and operations; improved transportation services for elderly and handicapped persons; and transportation-related air quality programs. Original Measure A expired in 2009 but a measure was placed on the November 2004 ballot to renew the Measure A for 30 more years after the original measure expired. After voters passed the new Measure A with more than 75% of voter approval, the "new" Measure A took effect in April 2009.

MEASURE T (111)

On November 6, 2018, registered voters, by a majority, voted to enact Measure T, a proposed one percent (1%) transaction and use tax. City Council approved Ordinance 540-18 on December 18, 2018 imposing a transactions and use tax to be administered by the California Department of Tax and Fee Administration (CDTFA) and adding Chapter 3.22, Transaction and Use Tax, to the Murrieta Municipal Code with an operative date of April 1, 2019.

REVENUE SOURCES

REVENUE SOURCES

MURRIETA REDEVELOPMENT SUCCESSOR AGENCY TAX ALLOCATION BONDS (512- 2005 TAB; 513- 2007 TAB)

The Redevelopment Successor Agency (Agency) was established as a result of the State of California's decision to dissolve all California Redevelopment Agencies. Funds were originally obtained from the issuance of Tax Allocation Bonds. The remaining balance of 2005 and 2007 bond proceeds can only be spent on items identified in the bond documents that have been approved by the Oversight Board of the Agency and have been approved by the Department of Finance (DOF) on the Recognized Obligation Payment Schedule (ROPS).

OTHER AGENCIES/REIMBURSEMENTS (319)

Funding is made available from other agencies or sources on a reimbursement, donation, and/or contribution basis. The actual agreement states the conditions for use of the monies.

OTHER GRANTS (350)

Grants in this fund are typically from local government or non-profit agencies to be used for a specific purpose.

SB1 ROAD MAINTENANCE AND REHABILITATION (307)

Road Maintenance and Rehabilitation Act are generated from increases in the diesel fuel and gasoline excise taxes, a new vehicle registration tax called the "transportation improvement fee", and an additional vehicle registration tax on zero-emission vehicles. These funds are restricted to fund projects that include, but are not limited to road maintenance and rehabilitation, safety projects, railroad grade separations, traffic control devices, and complete street components.

STATE TRANSPORTATION IMPROVEMENT PROGRAM (380)

The State Transportation Improvement Program (STIP) provides flexible funding that may be used by states and local governments for certain state highway improvements, intercity rail, and regional highway and transit improvements.

TRANSPORTATION UNIFORM MITIGATION FEES (TUMF) (161)

Under TUMF, developers of residential, industrial, and commercial property pay a development fee to fund transportation projects that will be required as a result of the growth the projects create. The Western Riverside Council of Governments oversees the allocation of TUMF fees to cities for funding local transportation projects.

¹ Fund 128 Freeway and Fund 135 Street DIF was discontinued after the new DIF study was implemented in 2018. New Bridge/Fwy/Street DIF under Fund 138 receiving mostly interest-only revenue.

² Grant Funds are projections and reimbursable in nature. The City recognizes the revenue during the fiscal year of activity and within the period of performance. Grant budget estimated balance may be carried forward year over year during the period of performance. Interest revenue accrues within the funds.

³ Funds 110,111,112,151,171,311 and 726 estimated revenue show fund balances that are committed to capital projects only.

⁴ Fund 210/LLD 10 is currently receiving subsidy from the General Fund to make up potential budget shortfall.

⁵ Committed fund balances to CIP and encumbrances at fiscal year-end to be tried-up.

⁶ DIF revenues are based on estimates, based on historical and current-year activity not the adopted budget, which may include interest revenue.

REVENUE SCHEDULE

EXPENDITURE ANALYSIS

EXPENDITURE BASIS, KEY ASSUMPTIONS, POLICIES AND SUMMARY

The City of Murrieta employs a modified accrual basis for its accounting method, which is used for governmental and fiduciary funds. Under this method, expenditures are recognized only when they are measurable and available. Expenditures are considered measurable when the transaction amount can be determined, and they are deemed available when they can be collected in a manner that allows them to pay for liabilities in the current period. The City defines an availability period for both expenditure and revenue recognition, considering expenditures related to a specific fiscal year as available if collected within 60 days after the fiscal year ends. Sixty days is a standard period for revenue expenditure recognition.

Typically, expenditures are recorded when the liability is incurred, with the exception of debt service expenditures, which are recorded when payment is due. In contrast, proprietary funds, including enterprise and internal service funds, operate on an accrual basis. Under this method, revenues are recognized when earned, while expenses are recognized when the related liability is incurred.

An Annual Operating Budget is adopted for all Governmental Funds, except for Capital Projects Funds, where effective budgetary control is achieved on a project-by-project basis as funding sources become available. Each fund has an appropriated budget prepared on a detailed line-item basis. All funds must be appropriated by the City Council, and appropriations lapse at the end of the year, except for those identified as capital projects, which continue until the project is completed.

During the bi-annual City Council Goal-Setting Workshop held in February 2025, the Finance Department identified an updated policy for the Operating and Capital Improvement Budget as a priority for the department.

The estimated operating impacts for fiscal year 2025/26 is calculated at a four percent (4%) inflationary factor year over year. This is reflected on the proposed funding plan also as estimated in the next three years of the five year capital improvement plan.

CALIFORNIA LEGISLATION IMPACTS

SB 937 (Wiener)

In September 2024, the California Governor Newsom signed SB 937 (Wiener), which regulates fees for residential development projects. The law prohibits local agencies from requiring payment for construction fees until the final inspection or issuance of the certificate of occupancy, whichever occurs first. However, utility service fees may still be collected when an application for services is submitted.

AB 2553 (Friedman)

In September 2024, California Governor Newsom signed AB 2553 (Friedman), which regulates fees related to vehicular traffic. When a local agency imposes a fee on a housing development under Section 66001 to address vehicular traffic impacts, the fee must be lower for developments that meet specific characteristics. This lower fee applies unless the agency determines, after a public hearing, that the development would generate as many or more automobile trips than those without those characteristics.

SB 74 (Seyarto)

In January 2025, California Senator Seyarto proposed SB 74, a bill that mandates the creation of the

EXPENDITURE ANALYSIS

basket of goods and services. In February 2025, obtained from the Bureau of Labor Statistics (BLS) Western Information Office, news release information 25-211-SAN, the consumer price index for all urban consumers (CPI-U) for the Riverside-San Bernardino-Ontario statistical area was up 2.9 percent for the past 12 months ending in January 2025. The next update to the CPI will be released in April 2025. An estimated cost inflation factor of four percent (4%) is used year over year from years three to five of the CIP FY 2025/26 to FY 2029/30 expenditure schedule of for purposes of forecasting future expenses. City staff

Chart 1. Over-the-year percent change in CPI-U, Riverside-San Bernardino-Ontario, CA, January 2022–January 2025

Source: U.S. Bureau of Labor Statistics.

GENERAL FUND (110) & GENERAL FUND CAPITAL (112)

The General Fund receives sales tax and district tax from both the Bradley-Burns and District Tax. These funding sources impact operating expenditures and potential transfers for capital improvements. According to the HdL website, as of March 2025, statewide sales tax revenue experienced a 1.2% decline, which was attributed to the autos and transportation, building and construction, and fuel and service station sectors. Capital projects that are not funded by other special revenue sources are supplemented by the General Fund and the General Fund Capital funds.

HIGHWAY USERS TAX ALLOCATION (HUTA) OR “GAS TAX” (306)

The City uses HUTA to not only provide capital improvement to transportation infrastructure but also provide services by the Public Works Maintenance personnel as it relates to street work, traffic signal maintenance, storm drain cleanup, and maintenance. The FY 2025/26 and FY 2026/27 budget includes both personnel and operations and maintenance budgets of the public works department. Initial forecast for FY 2025/26 for the fuel and service stations sector is a three (3%) percent growth rate.

CSD ZONES (180 to 189) AND LANDSCAPE AND LIGHTING DISTRICT FUNDS (200 to 229)

Landscape and Lighting Districts (LLDs) are established under the Landscaping and Lighting Act of 1972, which is part of Division 15 of the California Streets and Highways Code. These districts serve as a flexible tool for local government agencies to fund landscaping, lighting, and other improvements and services in public

EXPENDITURE ANALYSIS

areas of a specific zone. LLDs operate on the principle of charging only those properties that benefit from the maintenance and improvements within the district. This charge is applied through an assessment of the annual property tax bill for each benefit unit. Starting in fiscal year 2022, the Local Zones and LLDs received an operating transfer from the General Fund. For the fiscal year 2024/25, the Local Benefit Zones have not seen an increase in assessments and will continue to be levied at the same rate approved by property owners in 1997. Any future increases in the approved assessments will require a new ballot and approval from the affected property owners. The CSD tot lot replacement projects have been implemented through the use of the Local Benefit Zones and Landscape and Lighting District funds.

MEASURE A (302)

Measure A funds are generated from a one-half percent sales tax applied throughout Riverside County to support transportation projects. These funds are designated for a comprehensive program of roadway and transit improvements, which includes: highway, street, and road construction; maintenance of highways, streets, and roads; capital and operational expenses for bus and light rail services; enhanced transportation services for elderly and handicapped individuals; and transportation-related air quality programs. The original Measure A expired in 2009, but a new measure to renew it for an additional 30 years was placed on the November 2004 ballot. Voters approved this new Measure A with over 75% support, and it took effect in April 2009. In February 2020, the 2007 Certificate of Participation (COPS) was refinanced through the issuance of the 2020A Lease Revenue Refunding Bonds (2020A LRRB). This refinancing was undertaken to fund the costs associated with the 1997 Project for Murrieta Hot Springs Road. In the fiscal year 2024/25, approximately \$722,281 in annual Measure A proceeds is budgeted to cover this obligation. In fiscal year 2025/26, an estimated debt service payment of \$724,500 is anticipated. A detailed schedule of outstanding debt can be found in the appendices of this Capital Improvement Program (CIP) budget book. The bond is scheduled to reach its maturity date toward the end of the fiscal year 2026/27. The Riverside County Transportation Commission (RCTC) estimates a 2% growth rate year over year.

MEASURE T (111)

In March 2025, the Finance staff and Police, Fire and CSD directors presented to the Transactions and Use Tax Oversight Committee a summary report as of December 2024. The estimated capital improvement projects activities expended fiscal year to date is \$963,931. According to the most recent forecast through the mid-year budget process in March 2025, revenue is estimated to be at \$29 million which is seven and a half percent lower than originally adopted in 2023.

SB1 ROAD MAINTENANCE AND REHABILITATION (307)

The Road Repair and Accountability Act of 2017 (SB1 Beall) “paved” the way (pun intended) for the implementation and creation of the Road Maintenance and Rehabilitation Account (RMRA) The funds created an additional 12 cent per gallon increase in gasoline excise tax and 20 cent per gallon increase in diesel fuel excise tax effective November 2017. As part of the adoption of SB1, included an annual inflationary adjustment beginning July 2020. In January 2025, the forecast for the fuel and service stations sector is anticipated to have a three (3%) percent growth rate.

¹ Fund 128 Freeway and Fund 135 Street DIF was discontinued after the new DIF study was implemented in 2018. New Bridge/Fwy/Street DIF under Fund 138 receiving mostly interest-only revenue.

² Grant Funds are projections and reimbursable in nature. The City recognizes the revenue during the fiscal year of activity and within the period of performance. Grant budget estimated balance may be carried forward year over year during the period of performance. Interest admin. fees are calculated.

³ Funds 110,111,112,151,171,311 and 726 estimated expenditures show investment and banking fees only and one-time transfers out.

⁴ Fund 210/LLD 10 is currently receiving subsidy from the General Fund to make up potential budget shortfall.

⁵ Committed fund balances to CIP and encumbrances at fiscal year-end to be trued-up.

⁶ DIF revenues are based on estimates, based on historical and current-year activity not the adopted budget, which may include interest revenue.

⁷ The debt-service that is paid out of the Measure A fund is expected to end at the end of Fiscal Year 2026/27.

UNFUNDED PROJECTS BY CATEGORY

Bridges

I-15 Overcrossing at Elm Street	\$	16,600,000
Design and construct overcrossing and approach ramps.		
I-15 at Murrieta Hot Springs Modification		4,203,310
Modify existing interchange to add capacity to the northbound on-ramp.		
Madison Avenue at Warm Springs Creek		4,620,000
Design and construct bridge over Warm Springs Creek.		
Keller Road at I-215 Interchange		47,000,000
Design and construction of a new interchange at I-215 and Keller Road.		
Calle del Oso Oro at Murrieta Creek		3,000,000
Widen Calle del Oso Oro Bridge at Murrieta Creek.		
Nutmeg Street		9,416,202
Widen appx 480 LF (Lane Feet) along bridge on Calle de OsoOro and construct additional two lane span bridge.		
Total Bridges	\$	84,839,512

Streets & Highways

Jefferson Avenue	\$	6,085,185
Widen 2200 LF on the west side of Lemon Street to Kalmia Street		
Jefferson Avenue		942,681
Widen 350 LF on the east side of Kalmia Street to canal		
Jefferson Avenue		2,656,896
Widen 900 LF on the east side of Gateway to City Limits		
Jefferson Avenue		3,247,317
Widen 500 LF on the east side of Gateway and 1100 LF on the west side of Gateway		
Washington Avenue		852,124
Widen 700 LF on the east side of Calle de Oso Oro and to add two bike lanes and a sidewalk.		
Washington Avenue		5,711,987
Reconstruct a new two-lane collector of 2,620 LF.		
Washington Avenue		11,339,482
Construct between Elm and Guava at 5280 LF		
Guava Street		5,615,450
1320 LF widening on north side and 820 LF widening on south side Jefferson to Monroe		
Guava Street		9,406,022
Widen 5400 LF Washington to John Wayne		
Adams Avenue		7,228,702
Widen 1300 LF on the west side Brown to Guava and widen 2800 LF on the east side Guava to Hawthorn.		
Ivy Street		1,448,229
Widen 1320 LF on the north side Adams to Washington		
Kalmia Street		5,061,336
Widen/Construct 2640 LF W. City Limits to Washington		
Kalmia Street		1,575,517
Widen 690 LF on the north side Village Walk to Jefferson which includes narrowing travel lanes, relocating the median, and constructing a throughlane and sidewalk.		

Streets & Highways (continued)

Kalmia Street	\$ 4,251,995
Widen 2200 LF on the northside of Jefferson to Washington.	
Lemon Street	3,888,071
Widen 2000 LF on the north side of Washington to Hayes.	
Nutmeg Street	3,304,861
Widen 1700 LF on the south side Washington to Adams and widen 700 LF on the north side of Adams to Washington.	
Monroe Avenue	11,604,833
Construct 3800 LF Los Almos to Murrieta Hot Springs Road.	
Jackson Avenue	1,775,505
Widen 1300 LF on the east side Nutmeg St to Robards.	
Whitewood Road	10,106,723
Construct 4600 LF Jackson to Murrieta Hot Springs Road.	
Vineyard Parkway	5,450,369
Construct 2500 LF of Calle Del Oso Oro to future Calle Rambla Orienta	
McElwain Road	7,363,300
Widen 1300 LF on the east side Nutmeg St to Robards.	
McElwain Road	887,753
Construct 650 LF at Linnel Ln on west side.	
Linnel Lane	2,138,439
Widen 1100 LF on the north side of I-215.	
Whitewood Road	9,277,080
Widen 4800 LF on the east side of Hunter to Clinton Keith Road.	
Warm Springs Parkway	37,283,070
Construct approximately 13600 LF of New Antelope Rd. Clinton Keith to Scott Rd.	
Elm Street	5,172,125
Construct approximately 2,100 LF from Jefferson Avenue to Monroe Avenue.	
Madison Avenue	3,177,162
Construct approximately 1,290 LF from Nick Lane to Date Street.	
Madison Avenue	2,137,732
Construct approximately 700 LF from Golden Gate Circle to Nick Lane.	
Madison Avenue	17,804,256
Construct approximately 5,830 LF from Murrieta Hot Springs Rd to Golden Gate Cir	
Monroe Avenue	12,215,613
Construct approximately 4,000 LF from Guava Street to Larchmont.	
Murrieta Hot Springs Road	1,935,326
Construct approximately 1,320 Madison Ave to Jefferson Ave.	
Murrieta Hot Springs Road	4,975,487
Construct approximately 1,320 Jefferson Avenue to Adams Ave.	
Hayes Avenue	13,934,848
Construct approximately 8,000 LF from Kalmia to Guava Street.	
Fig Street	6,715,194
Construct approximately 2,400 LF from Jefferson Avenue to Monroe Avenue.	

UNFUNDED PROJECTS BY CATEGORY

Streets & Highways (continued)

Larchmont Lane	\$ 5,875,795
Construct approximately 2,100 LF from Jefferson Avenue to Monroe Avenue.	
Porth Road	5,886,399
Construct approximately 2,700 LF from Liberty Road to Clinton Keith Road.	
Liberty Road	2,877,795
Construct approximately 1,320 LF from Porth Road to City Limits.	
Antelope Road	12,192,992
Construct approximately 7,000 LF from Stepp Road to Brian's Way.	
Keller Road	3,331,300
Construct approximately 1,700 LF at I-215 to Meniffee Road	
Mitchell Road	5,937,863
Construct approximately 2,300 LF from McElwain to Clinton Keith Road.	
Adams Avenue	4,598,500
Construct approximately 2,640 LF from Lemon Street to Kalmia St.	
Hawthorne Street	2,877,795
Construct approximately 1,320 LF from Adams Avenue to Washington Avenue.	
Ivy Street	3,309,526
Construct approximately 1,900 LF from Washington Avenue to Hayes Avenue.	
Adams Avenue	9,598,588
Construct approximately 9,300 LF from Guava Street to Cherry Avenue.	
Lemon Street	5,132,254
Construct approximately 2,640 LF from Washington Avenue to Cherry Street.	
Vista Murrieta	6,322,428
Construct approximately 2,900 LF from Los Alamos Road to Monroe Avenue.	
Fig Street	1,503,340
Construct approximately 700 LF from Adams Avenue to Jefferson Avenue.	
Los Alamos Road	1,567,670
Construct approximately 900 LF from Via Santee to Ruth Ellen Way.	
Lincoln Avenue	1,741,856
Construct approximately 1,000 LF from Juniper Street to Los Alamos Road.	
Total Streets & Highways	\$ 299,324,771

Traffic Signals

Traffic signal at Jefferson Avenue and Auto Mall Parkway	\$	400,000
Install new traffic signal.		
Traffic signal at Monroe Avenue and Sunflower Road		400,000
Install new traffic signal.		
Traffic signal at Whitewood Road and Avenida Acacias		400,000
Install new traffic signal.		
Traffic signal modification at Madison Avenue and Los Alamos Road		445,000
Modification of existing traffic signal and minor street improvements to add a north-bound right turn pocket.		
Traffic signal at Keller Road and Zieders Road		400,000
Install new traffic signal.		
Traffic signal at Antelope & Baxter		1,249,852
Install new traffic signal.		
Traffic signal at Antelope & Linnel		6,552,512
Install new traffic signal.		
Traffic signal modification at Monroe & Los Alamos		660,353
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Jefferson & Murrieta Hot Springs		1,500,616
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Washington & Calle del Oso Oro/Nutmeg		1,360,383
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Jefferson & Magnolia		1,373,575
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Jefferson & Kalmia		1,360,383
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Monroe & Murrieta Hot Springs		1,765,657
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Whitewood Road & Murrieta Hot Springs Rd.		1,363,557
Modification of existing traffic signal and minor street improvements.		
Traffic signal at Adams & Guava		2,122,198
Install new traffic signal.		
Traffic signal at Washington & Lemon		857,948
Modification of existing traffic signal and minor street improvements.		
Traffic signal modification at Jackson & Nutmeg		428,974
Modification of existing traffic signal and minor street improvements.		
Traffic signal at Adams & Ivy		643,461
Install new traffic signal.		
Traffic signal modification at Jefferson & Elm		235,936
Modification of existing traffic signal and minor street improvements.		
Traffic signal at Hayes & De Luz/Guava		1,263,543
Install new traffic signal.		
Traffic signal at Madison Avenue and Elm		2,022,184
Install new traffic signal.		
Traffic signal at Linnel & McElwain		1,829,789
Install new traffic signal.		

Traffic Signals (continued)

Traffic signal modification at Jefferson & Fig Modification of existing traffic signal and minor street improvements.	249,019
Traffic signal modification at Madison Avenue and Fig Install new traffic signal.	2,225,518
Traffic signal modification at Jefferson & Centerpointe Modification of existing traffic signal and minor street improvements.	150,516
Total Traffic Signals	\$ 31,260,974

Storm Drains

Line F at Murrieta Creek Construct the ultimate channel for line F from west of Washington Avenue to Murrieta Creek.	\$ 7,800,000
Downtown Hydro-Modification Construct regional drainage facilities to address hydro-modification requirements for development in the downtown district.	500,000
City Wide Open Channel Annual Maintenance Establish an open channel maintenance program.	750,000
Line D Construct Storm Drainage Line D.	3,038,034
Line L Construct Storm Drainage Line L.	1,057,543
Line L-1 Construct Storm Drainage Line L-1.	87,594
Line M Construct Storm Drainage Line M.	257,086
Line L-1 Construct Storm Drainage Line L-1.	138,869
Line N Construct Storm Drainage Line N.	754,167
N/O Larchmont, Jefferson to Murrieta Creek Construct storm drainage at Larchmont, Jefferson to Murrieta Creek.	508,475
N/O Fuex Wa, Jefferson to Murrieta Creek Construct storm drainage at Fuex Wa, Jefferson to Murrieta Creek.	257,086
Line, Kalmia St. Historic Murrieta Area Construct storm drainage at Kalmia St. at Historic Murrieta Area.	80,614
Line, B St. Historic Murrieta Area Construct storm drainage at B St. at Historic Murrieta Area.	63,595
Line, Jefferson St. Historic Murrieta Area Construct storm drainage at Jefferson St. at Historic Murrieta Area.	47,144
Line, Adams Ave. Historic Murrieta Area Construct storm drainage at Adams Ave. at Historic Murrieta Area.	88,307
Line, New Clay St. Historic Murrieta Area Construct storm drainage at New Clay St. at Historic Murrieta Area.	81,969
Storm Drainage Master Plan Establish and Update the Storm Drainage Master Plan.	217,050

UNFUNDED PROJECTS BY CATEGORY

Storm Drains (continued)		
Guava: Jefferson to Murrieta Creek Rd		90,466
Construct storm drainage at Guava St. from Jefferson to Murrieta Creek Rd.		
Line D & D1: Madison to Jefferson		13,130
Construct storm drainage at Line D & D1: Madison to Jefferson.		
Line E		32,438
Construct storm drainage at Line E.		
Murrieta Creek Design		116,539
Initiate and Update the Murrieta Creek Design.		
Storm Drain DIF Nexus Study		2,127
Update the Storm Drain DIF Nexus Study.		
Line F at Murrieta Creek		842,155
Construct storm drainage at Line F.		
Line G		868,201
Construct storm drainage at Line G.		
Murrieta Creek Flood Control Channel		4,341,007
Establish the Murrieta Creek Flood Control Channel.		
Total Storm Drains	\$	22,033,596

UNFUNDED PROJECTS BY CATEGORY

Buildings

Community Room Addition	\$ 1,750,000
Construct a 6,700 square-foot room addition for the Community Center.	
Downtown Public Parking Structure	16,000,000
Construct public parking structure, to service the Downtown District.

Replace nine (9) defibrillators equipment units over 3 years.		
EMS Auto Pulse Replacement Project		144,000
Replace nine (9) aging Auto Pulse EMS equipment sets.		
Total Miscellaneous	\$	10,208,240
TOTAL UNFUNDED		\$ 581,343,001

*This table potentially contains more unfunded projects than the Capital Improvement Projects by Category and is updated annually.

*Updated by the different City divisions to show Total Cost as part of the proposed Final Draft of the 2023 DIF Study Report .

*Cost estimates include contingencies as part of the initial estimates.

PARAMETERS FOR BUDGET COST ESTIMATES

P100 Design Costs15% of construction costs
Includes:	Design engineering
Includes:	Soils testing
Includes:	Surveying/inspection
Includes:	Environmental studies
P200 AcquisitionActual costs
P250 Technology AcquisitionActual costs
P300 Permit Costs10% of design costs
P400 Administrative/Miscellaneous Costs10% of construction costs
P450 PW Inspection Costs5% of construction costs
P500 ConstructionEstimated on a square footage basis
.....	Paving - \$8 per square foot
.....	Office Buildings - \$127 per square foot
.....	Fire Stations - \$147 per square foot
.....	Library - \$137 per square foot
P600 Construction Contingency15% of construction costs
P700 Non-Construction Contingency10% of non-construction costs

These parameters are used as guidelines for estimating CIP project budgets, however, some projects may have specific estimates that differ from these parameters.
